Memorandum

To: **ALL SCOTTSDALE AIRPORT TENANTS AND USERS**
From: **Gary P. Mascaro, C.M., C.A.E., Assistant Aviation Director**
Date: **April 12, 2005**
Re: **RUNWAY CLOSURES FOR SAFETY AREA IMPROVEMENT PROJECT**

This year's major airport improvement project is the final phase of the placement of a crushed rock aggregate in the unpaved areas adjacent to the runway and taxiways. This rock product is being placed in order to control the F.O.D and for erosion protection in the safety areas.

Since the project will require us to work adjacent to the runway with large numbers of construction vehicles, we will have to close the runway while this project is being completed. In order to minimize the impact on our users, the project will be completed entirely at night.

RUNWAY CLOSURE SCHEDULE:

**PHASE 2 (Bravo Side) Monday- Friday Nights Only (9 P.M. to 6 A.M.)
June 6th to July 29th 2005**

Please be advised that this phase has extra time incorporated for contingency/weather purposes. It is very possible that the duration of these closure blocks will be reduced.

***The Runway will not be closed during the day for this project.**
***The Runway will remain open on Saturday and Sunday nights during the entire project.**

If you have any questions regarding this project, please contact me at 480-312-7612 or Airport Operations at 480-312-8478.
